

BIOTIC FERTILIZER ADVANTAGES

- ✓ Homogenous uni-prill (not blended)
- ✓ Chemical nutrients balanced for maximum effectiveness
 - Complete primary N-P-K nutrients
 - Complete secondary nutrients Ca-Mg-S
 - Complete trace minerals
- ✓ Natural formulations - safe for kids and pets after applications.
- ✓ Water in to activate
- ✓ Increases soil water holding ability - with use fertilized soils require 15% -20% less water.
- ✓ Highly soluble formulation - acts quickly in topsoil / root zone.
- ✓ Biological based fertilizer accelerates soil microbes
- ✓ Rapidly rebuilds natural carbon fertility in top 6" of soil
- ✓ Chelated (complexes) ionic chemical forms that both plants and soil microbes can readily use without mineralization.
- ✓ Contains mycorrhizal fungus propagates to accelerate fungus balance
- ✓ Increases populations of soil microorganisms
 - Increases natural soil fertility
 - Focused nutrients rapidly increases soil microbe numbers
 - Soil microbes grow rapidly and die rapidly
 - Soil microbes are high in protein and elemental chemicals
 - Microbe life cycle waste is highly fertile & stable
 - Remains in soil to provide steady plant foods
- ✓ Low leach - low tracking after watering.
- ✓ Apply 2 to 4 times per year depending upon demands.

PERFECT BLEND ORGANICS IS PROUD TO SUPPORT AUDUBON INTERNATIONAL'S GOLF & THE ENVIRONMENT INITIATIVE.
