

2-0-0
LIQUID

Proprietary Process!

Perfect Blend fertilizers are made using a proprietary process that produces a high quality nutrition to soil microbes that are responsible for breaking down minerals for plants while helping to maintain a balanced pH in your soil.

APPLICATION DIRECTIONS

SHAKE WELL BEFORE USE

Dilute at the rate of one gallon of water per 8 oz. of liquid fertilizer. Fertilizer is activated when mixed with water. Activated fertilizer should be used immediately for maximum response. Left over mix should be used within 72 hours.

Household use: Diluted fertilizer can be applied to potted and indoor plants on a regular basis.

Lawn & Garden: Apply diluted fertilizer once a month during growing season.

Trees: Soak bare root trees or transplants with liquids before planting. Generously apply to surface and surround trees on a month basis thereafter.

Agriculture: Consult your licensed agronomist for or apply on the minimum basis of one gallon fertilizer per 16 gallons of irrigation water. Apply at rate of 50 gallons per acre for commercial applications.

Guaranteed Analysis

Total Nitrogen (N)..... 2.00%
0.14% Ammoniacal Nitrogen
1.63% Other Water Soluble Nitrogen
0.23% Water Insoluble Nitrogen

Derived From:
Chicken Manure, Raw Fish

ALSO CONTAINS NONPLANT FOOD INGREDIENTS

Soil Amending Ingredients:
5.00% Volcanic Ash
