

Perfect Blend 10-3-7 SGN 150

Perfect Blend Fertilizer with 14 Essential Elements

Proprietary Process!

Perfect Blend fertilizers are made using a proprietary process that produces a high-quality nutrition to soil microbes that are responsible for breaking down minerals for plants while helping to maintain a balanced pH in your soil.

APPLICATION DIRECTION:

Established Turfgrass: Apply as a top dressing for fairways, rough, lawns, greens, landscapes, or on any established grass. Apply 5 lbs. to 10 lbs. per 1,000 square feet for application of .5 lb. to 1 lb. of actual nitrogen per 1,000 square feet. The maximum value of these fertilizers is obtained when applied during aeration.

Ornamentals and Flower Beds: Apply 1 lb. (Approximately 2 cups) per 25 sq. ft. Work into the soil prior to placing flowers or ornamentals. Repeat application when buds bloom and in the late fall before first frost.

Starter or Grow-Ins: Apply 10 lbs. of fertilizer per 1,000 sq. ft. for 1 lb. of nitrogen. Till or rake into the top 2"-4" after surface spreading.

Bulk Applications: Apply 500 lbs. of fertilizer for each 50 lbs. of nitrogen required. Apply 1,000 lbs. of fertilizer for each 100 lbs. of nitrogen required. Apply 2,000 lbs. of fertilizer for every 200 lbs. of nitrogen required.

SPREADER SETTINGS					
	1/2 LB N	1 LB. N		1/2 LB N	1 LB N
