

Great for Lawns!
Covers 3,500 up to sq.ft.

Slow Release Fertilizer!

4-4-2

Apply with any conventional fertilizer spreader!

ALL PURPOSE PLANT FOOD

Perfect Blend 4-4-2 is designed, when applied correctly, to meet your fertilizer needs for garden, nursery, house plants, patio plants, and lawn.

The Perfect Blend Advantage :

Perfect Blend fertilizers are made using a proprietary process that produces high quality nutrients focused as nutrition for the soil microbes responsible for natural soil fertility.

APPLICATION DIRECTION:

Small Garden - Vegetables: Apply 5 cups along the bottom of a 24 foot section of planting rows, then cover the fertilizer with a thin layer of soil. Place your seeds on this soil layer, then cover. For mounding plants place one cup in the bottom and sides of the planting hole and cover with soil. For legumes, put one cup every 50 feet. For best results, plant seeds, cover with soil and ½ cup of water.

Bedding Plants & Flower Beds: Place 1/4 tsp of food in the bottom of the hole provided for the bedding plant. Place the plant directly into the hole and on top of the plant food and water.

Ornamentals and Trees: Place 1/3 cup of Perfect Blend plant food in the bottom and around the edges of the hole before planting. After planting, for every 2 feet of plant height, mix an additional 1/3 cup in the soil used to fill the hole and pack around the roots.

Established Planting: During the growing season apply an additional 5 cups every 50 feet along the plants drip line after your plants bloom. Always water in newly applied plant food.

Container Plants: Mix 1/2 tsp of Perfect Blend plant food into every quart of potting soil. Repeat every 4 to 6 weeks.

Inside Potted House Plants: Make small holes in the soil along the edge of the container and into the root zone. Apply 1/4 tsp of food into each hole. Use 1 tbsp. every 6 feet or 1/2 tsp for a 6 inch pot. Perfect Blend can be mixed with ½ tsp. per quart of water to water a typical 6-inch potted plant.

Directions For Lawn Applications:

Established Existing Lawns: Will require routine applications; they are beneficial and highly recommended. Apply at the rate of 25 lbs for every 3,500 square feet every 60 days. Water well and wait overnight before allowing children and pets onto the fertilized area.

New Lawns: Will benefit from a heavy application of Perfect Blend 4-4-2. Apply at the rate of 25 lbs per 1,500 square feet and water well.

Sod application: Apply 25 lbs for every 1,500 square feet of plant food to soil, lay sod and water well.

Newly seeded lawns: Will benefit from a heavy base application of Perfect Blend 4-4-2. Apply at a rate of 25 lbs per 1,500 square feet and water well! After lawn is established follow existing lawn food application guidelines.

SPREADER SETTINGS:

Most Rotary Spreaders including Scotts Broadcast Rotary Spreader - Setting 7 ½

Most Drop Spreaders including Scotts Drop Spreader – Setting 10 ½

CAUTION KEEP OUT OF REACH OF CHILDREN

Perfect Blend, LLC recommends that this product, as well as any fertilizer, be kept out of reach of children. This product, while of a relatively mild nature, may be harmful or fatal if swallowed and may cause skin and eye irritation. Avoid breathing in the dust. Avoid contact with skin, eyes, and clothing. Washing skin with water and soap after handling. If in eyes, flush eyes thoroughly with water for 10 minutes. Repeat as needed, and follow up with a physician.
